Chairs Message

Happy Holidays to everyone. I hope you find time to enjoy these few weeks through the end of the year.

Our thanks go out to Dr. Tom Bubenik and CC Technologies for hosting our November program on pipeline integrity. We had a good attendance to this program including both student and senior section members.

I want to extend a welcome to Parimal More and Colin Scott who have recently joined our Executive Committee (EC). Parimal More will act as our Program Chair. This is a critical position and we are thankful for his commitment to the section. Please feel free to contact Parimal with your suggestions for future programs. Colin will be helping with programs and newsletters.

With the many holiday gatherings and busy schedules, we will not be hosting a December program. We are looking forward to our programs beginning in January, however. Be sure to mark your calendars now for our January program at Nationwide Arena downtown. We will be getting a guided tour on Thursday, January 19th, 2006 at 6.00 pm. We also look forward to our February program with the OSU Student section and their presentations for the ASME Old Guard competition.

Sincerely,

Greg Soller, PE, PMP

ASME Connections Now On ASME.ORG

As ASME moves to the implementation phase of its reorganization, it has become essential to provide membership with a centralized site for accessing up-to-date information.

ASME Connections (www.asme.org/asmconnections) provides easy access to the new structure and strategies of ASME.

At **ASME Connections People**, meet the faces behind some of the successes so far; converse with other members at ASME's growing **Communities of Practice** web forum; and learn about the new programs that are being developed by the Society at the **New Initiatives** link. You may also access a number of news outlets such as **ASME News Online**, **Inter-Comm**, the quarterly news publication, and the **ASME Press Room**.

ASME Connections will be updated regularly. For additional information, contact Mel Torre, director, Communications at torrem@asme.org or 212 591 8157.

Katrina Loans Available for Eligible Students

ASME has established a fast track student loan for mechanical engineering students who have been adversely affected by Hurricanes Katrina & Rita. Applications will be accepted on a continuous basis thru June 30, 2006.

For more information contact Maisha Phillips at (212) 591-7371 or PhillipsM@asme.org. Additional information can also be obtained by visiting the Web site at <http://www.asme.org/education/enged/aid/loan.htm>

Today's new and expanding global market demands more than conventional thinking. Whatever your business, you need to build and maintain your engineering edge, with the insight and training that only comes from a leader. **ASME Solutions** is a powerful, comprehensive, and unique resource that provides industry-specific tools required for success. Through **ASME Solutions**, companies or institutions can partner with ASME to ensure a competitive edge.

Find out how to build a stronger engineering community and a better business environment. Visit <http://www.asmesolutions.org/>

Knowledge and Community

The **Knowledge and Community (K & C) Sector** is one of the four sectors making up the Engineering and Technology Enterprises. The sector is designed to deliver value to members and customers through member unit programs and activities.

K & C is made up of more than 800 of these member units that originally existed under the Council on Engineering and the Council on Member Affairs.

The member units include:

- Technical Divisions
- Sections
- Student Sections
- Self-forming Groups and Communities of Practice

The K & C Board of Directors is working now to have in place a support structure that will enable unit volunteer leaders to continue to provide high quality programs aimed at the acquisition and dissemination of technical knowledge, providing opportunities for engineering practitioners to connect and to exchange ideas, and to promote the advancement and professional development of our members and customers.

The K & C Board of Directors are:

Wade Troxell	Senior Vice-President
Larry Dickinson	VP, Programs & Activities
Karen Moore	VP, Technical Communities
Richard Jacobsen	VP, Financial Operations
S. Dyer Harris	VP, Affinity Communities
Doug Brown	VP, Global Communities
Hank Cook	Chair, Representation & Governance
Terri Taylor	Chair, Information & Communication
Dan Segalman	VP, Technical Communities (Nominee)
John Wesner	VP, Programs and Activities (Nominee)
Burt Dicht	Managing Director

ASME News Is Now Online!

ASME News is now available to membership exclusively online at <http://www.asmenews.org>. When a new issue of ASME News is posted, a special announcement will appear on the ASME homepage and on Mechanical Engineering magazine online's *only on M.E. Magazine box* (located in the table of contents page of the magazine).

ASME Forms Districts To Serve Membership

ASME's Knowledge & Community (K & C) Sector Interim Global Communities Operating Board has announced the formation of a new structure consisting of ten districts. The new district alignment replaces the previous structure of the Council on Member Affairs' 13 regions.

The North American districts were formed with the combination of two former regions, with the exception of the Mid-Atlantic Region, which was subdivided to serve three districts. The International Region, which combined all continents outside of North America, is now sub-divided into four districts.

Each of the districts is assigned a district leader who is a former regional vice president or sub-regional chair (as is the case for each of the four districts outside North America). Doug Brown, former Vice President of the International Southwest Region X will now serve as the vice president of Global Communities. The districts will be represented by the Global Communities Operating Board (GCOB), which is made up of the Vice President and the ten district leaders.

Support for the districts has also undergone some changes. Brown will work with other volunteer leaders within the K & C Board of Directors and staff members from the K & C department to ensure that resources and services are provided to the Global Communities under the new structure. Senior Vice President Wade Troxell leads the K & C Sector and Burt Dicht is the Managing Director.

Direct staff support will come from the K & C department and the Unit Support department of the Services sector. Since July 29, ASME's five regional field offices have been closed and three directors have migrated to the new position of director, Client Relations. These individuals will be responsible for relationship management with industry and government and are also expected to assist various units of K&C on special projects and programs.

The district leaders are now in the process of forming their operating boards and more detail on this new structure will be communicated shortly.

Below are the current districts, their leaders and end of term:

Current	Former	Leader
District A	Regions I & II, plus part of III	Karen Ohland (FY08)
District B	Region V, plus part of III	Leonard Anderson (FY07)
District C	Region VI & VII	Kambiz Farhang (FY08)
District D	Region VIII & IX	Lynden Davis (FY06)
District E	Region X & XII	Brett North (FY08)
District F	Region IV & XI, plus part of III	Lee Crawford (FY06)
District G	Region XIII	Vic Ilic (FY06)
District H	Region XIII	Nilufer Egrican (FY06)
District I	Region XIII	Carlos Lasarte (FY07)
District J	Region XIII	Hasan Sabri (FY07)

For more information on the updates to the current structure, visit the Knowledge & Community Sector at <http://www.asme.org/governance/knowledgecommunity>. You may also visit <http://www.regions.asme.org/closures/> for assistance regarding specific inquiries.

The Solar Energy and Advanced Energy Systems Divisions of ASME are soliciting nominations for the *ASME Frank Kreith Energy Award*. The award was established in 2005 to recognize significant contributions by an individual to a secure energy future through innovations in conservation and/or renewable energy technology.

For details about the award, application information, and deadlines, visit <http://www.asme.org/honors/pdf/kreith.pdf>

ASME SEEKS FEDERAL FELLOWS TO SERVE AT OSTP

ASME is currently seeking applications from individuals interested in serving as a Federal Fellow with the Office of Science and Technology Policy and the U.S. Department of Homeland Security.

All Federal Fellow applicants must be ASME members and U.S. citizens. Applicants are encouraged, though not required, to have at least five years of professional experience, an advanced engineering degree, professional engineer registration, and some public policy experience.

For additional information, contact Kathryn Holmes at holmesk@asme.org or visit <http://www.asme.org/gric/Fellows/fellowshome.html>

Committee on Ethical Standards & Review

The Committee on Ethical Standards & Review (CESR) is accepting nominations for an open position.

The CESR, part of the Center for Professional Development, Practice, and Ethics, seeks to encourage a high standard of ethical practice in engineering while improving the status of the engineering profession. This includes oversight of the following ASME policies:

- Ethical Conduct Violation Procedures (Policy 15.4)
- Code of Ethics of Engineers (Policy 15.7)
- Policy on Conflicts of Interest (Policy 15.8)
- Policy on Sexual Harassment (Policy 15.9)

The CESR maintains Community of Practice (COP) websites related to engineering ethics, and serves as the ASME liaison with the National Institute for Engineering Ethics (NIEE). Members of this Committee conduct seminars, presentations, and training sessions on the ethical aspects of the engineering profession. These are held at ASME Conferences, local Section meetings, and company worksites.

Criteria for this position include:

- A minimum of ten years dedicated service to ASME.
- A minimum of five years experience in ASME activities beyond the local section.
- A commitment to upholding ethics in engineering practice.
- Licensed as a Professional Engineer.

The term for this position begins in July 2006 and continues through the end of June 2010. Nominations should be forwarded to:

David J. Soukup, P.E.
Managing Director, Centers
ASME
Three Park Avenue
New York, NY 10016
phone: 1-212-591-7397
fax: 1-212-591-7739
soukupd@asme.org

Call for Nominations: 2006 ASME Johnson & Johnson Medal

The Center for Leadership & Diversity is actively soliciting nominations for the 2006 ASME Johnson & Johnson Consumer Companies, Inc. Medal.

This medal recognizes outstanding contribution by an individual, company, government entity, school, or other organization towards developing and implementing practices, processes and programs that value and strategically manage diversity and inclusiveness. The award includes a medal, certificate and honorarium of \$1,000. In addition, travel expenses of the recipient are reimbursed, in accordance with ASME Policy -4.5, to allow the recipient to attend the meeting at which the presentation of the medal is made.

The first recipient of the Medal, Dr. Joseph Bordogna, was recognized during the Honors Assembly at the 2005 Congress.

Nominations, along with a completed nominations packet, must be received no later than Feb.1, 2006. The ASME JJCCI Medal Nominations Committee will review the nominations, and a recommendation will be made to the Committee on Honors by no later than March 1, 2006.

Award applicants should be able to:

- Demonstrate alignment to the core values of ASME
- Demonstrate the effectiveness of their practices, processes and programs towards increasing the numbers of women and minorities within the multi-disciplines of mechanical engineering
- Demonstrate the impact of programs that are designed to include diverse participants and that create positive work and achievement environments for all participants.

In addition, award applicants:

- Must be a member of ASME or of a recognized engineering society;
- If an institution or organization, must have had an established program for a minimum of two years with more than 25 active participants; and,
- Must not have been involved in litigation related to discrimination or harassment within the past three years.

Additional information, as well as the nomination form itself, may be found at <http://www.asme.org/honors/ms71/saa/johnson.html>.
